

**Electric Winch 240v**

Electric Winch 240v is a small and light lifting device that uses a drum to wind a steel wire rope or chain to lift or tow heavy objects, also known as a winch. The Electric Winch 240v can lift heavy objects vertically, horizontally or tilted. There are three types of winches: manual winches, Electric Winch and hydraulic winches. Mainly Electric Winch 240v.

**1. Electric Winch 240v**

Electric Winch 240v , It can be used alone or as a component of machinery such as lifting, road building and mine hoisting. Electric Winch 240v Mainly used in construction, water conservancy projects, forestry, mines, docks, etc. for material lifting or flat towing.

Electric Winch 240v It is widely used in ports, electric power, steel, shipbuilding, petrochemicals, mining, railways, construction, metallurgy and chemicals, automobile manufacturing, plastic machinery, industrial control, highways, large-scale transportation, pipeline auxiliary equipment, slope tunnels, shaft treatment and protection, Marine rescue, marine engineering, airport construction, bridges, aviation, aerospace, venues and other important industries as well as mechanical equipment for infrastructure construction projects.

**2. Electric hoist 500kg**

Model	1T	2T	3T	5T
Rated voltage	240V/380V	240V/380V	240V/380V	240V/380V
Lifting speed(m/min)	16/8	16/8	16/8	16/8
Motor Power(kw)	1.5	3	4.5	7.5
Lifting height	30-100	30-100	30-100	30-100
Overall length	800	830	950	1100
Wire rope diameter	8	11	13	15

### **3.Electric Winch 240v Feature And Application**

The Electric Winch 240v can be used alone or as a component of machinery such as lifting, road construction and mine hoisting. Electric Winch 240v It is widely used because of its simple operation, large rope winding volume and convenient displacement. Electric Winch 240v Mainly used in construction, water conservancy projects, forestry, mines, docks, etc. for material lifting or flat towing.

### **4.Electric hoist 2tons Details**

Electric Winch 240v ,Thickened base, high durability and safety, overall reinforcement and reliability

Electric Winch 240v use Pure copper motor, with large copper content, more sufficient power, using enlarged conical rotor

Electric Winch 240v,Industrial-grade remote control, strong penetrating power, stable signal, long controllable distance

## 5. Product Qualification

Shanghai Yiyong Crane machinery Company supply 380V Electric Winch 240v. it is the most popular in Asia, America and Canada, It is beautiful, strong and durable. we promise the electric hoist 2ton warranty is 2 years. and the hand cable is waterproofed, and we really welcome the traders around the world join in us.

## 6. Deliver, Shipping And Serving

Electric Winch 240v, the production is completed in 3 days, and it can be made to order in an urgent manner, and the production is fully controlled, and the goods will be delivered in 3 days nationwide.

## 7. FAQ

1. Is your products customized?

[www.hugoforklift.com](http://www.hugoforklift.com)

Yes. Due to different working conditions, all Electric Winch 240v are customized, depending on specific requirements, so if you can provide more information, we can prepare accurate solutions for you.

## 2. What information should I provide in my inquiry?

The more information you provide, the more accurate solutions will be ready for you! Information such as lifting height, lifting capacity, span, power supply or other special equipment you provide will be very useful.

## 3. How many operations have I chosen?

The standard configuration we provide is a suspension controller with buttons, and we can also provide a remote control or cab with buttons.

## 4. My workshop space is limited. Can I use it?

For low headroom workshop, we have special Electric Winch 240v. Our engineers will design the details for you.
